

§ 1735.44

to replace notes with an original maturity that exceeded the composite economic life of the facilities financed with notes bearing a shorter maturity approximating the expected composite economic life of the facilities financed, if this will result in a shorter maturity for the loan. The principal balance of the notes (hereinafter in this section called the "refunding notes") issued to refund and substitute for the original notes would be the unpaid principal balance of the original notes. The refunding notes would mature at a date no later than the remaining economic life of the facilities financed by the loan, plus three years, as determined by the original feasibility study prepared in connection with the loan. Interest on the original note must continue to be paid through the closing date. All other payment terms, including the rate of interest on the refunding notes, would remain unchanged. Disposition of funds in the funded reserve will be determined by RUS at the closing date. RUS will notify the borrower in writing of the amendment of loan payment requirements and the terms and conditions thereof.

(d) A borrower qualifying under paragraph (c) of this section shall not be required to pay a prepayment premium on such portion of the payments under its new notes as exceeds the payments required under the notes being replaced.

(e) To apply for refunding notes, borrowers must send to the Area Office the following:

(1) A certified copy of a board resolution requesting an amendment of loan payment requirements and that certain notes be replaced;

(2) If applicable, evidence of approval by the regulatory body with jurisdiction over the telecommunications service provided by the borrower to issue refunding notes; and

(3) Such other documents as may be required by the RUS.

(f) Principal and interest will be repaid in accordance with the terms of the notes. Generally, interest is payable each month as it accrues. Principal payments on each note generally are scheduled to begin 2 years after the date of the note. After this deferral period, interest and principal payments

on all funds advanced during this 2-year period are scheduled in equal monthly installments. Principal payments on funds advanced 2 years or more after the date of the note will begin with the first billing after the advance. The interest and principal payments on each of these advances will be scheduled in equal monthly installments. This CFR part supersedes those portions of RUS Bulletin 320-12, "Loan Payments and Statements" with which it is in conflict.

§ 1735.44 Prepayment premiums.

The loan documents normally provide that RUS insured loans may be repaid in full at any time without prepayment premiums. Depending upon the lender, there may be prepayment premiums on loans guaranteed by RUS. See 7 CFR part 1610 for prepayment premiums on RTB loans. See RUS Bulletin 320-12 for additional information. This CFR part supersedes those portions of RUS Bulletin 320-12, "Loan Payments and Statements", with which it is in conflict.

§ 1735.45 Extension of payments.

RUS may extend the time of payment of principal or interest on a loan. Under section 12 of the Rural Electrification Act, as amended, this extension may be up to 5 years after such payment is due. Under section 236 of the Disaster Relief Act of 1970 (Pub. L. 91-606) payment may be deferred by the Secretary of Agriculture as long as necessary in disaster situations so long as the final maturity date is not later than 40 years after the date of the loan. See RUS Bulletin 320-2 for additional information.

§ 1735.46 Loan security documents.

(a) Loans are to be repaid according to their terms. RUS generally obtains a first lien on all assets of the borrower. This lien shall be in the form of a mortgage by the borrower to the Government or a deed of trust made by and between the borrower and a trustee, satisfactory to the Administrator, together with such security agreements, financing statements, or other security documents as RUS may deem
